Dear FCC~

Please reject the NAB's petition 04-160.

Consumers have chosen to pay for XM Radio's services & those services should not be controlled by the NAB as to what we hear. Their services are not available anywhere else & are greatly valued.

XM Radio provides such an awesome service...it is something that millions of consumers have waited so long for the technology to provide.

Please don't take that away.

Sincerely,

Jill Hughes
